GUMBOOT SPECIALISTS FOR
80 YEARS
& COUNTING

WAYNE

AFRICA'S GUMBOOT SPECIALIST FOR 80 YEARS & COUNTING

Wayne Safety started manufacturing gumboots an incredible 80 years ago, with Wayne Rubber producing rubber gumboots in KZN. This began a long tradition of manufacturing superior quality gumboots and serving workers right at the heart of industry. Since 1940 no other manufacturer on the continent has supplied more industrial and safety gumboots to the African market.

Ever since our inception, we have focused on what we do best – gumboots, and gumboots alone – allowing us to emerge as specialists in our field and pioneers in both innovation and quality.

Wayne has become a firm favourite in some of the toughest industries. Miners have worn our iconic Egoli gumboot for decades, fondly referring to them as 'mdala-scathu' (mdala iscathulo), which loosely translates to "the old-timer shoes", because they have stood the test of time.

We were the first gumboot manufacturer in Africa to install our own PVC compounding plant which allowed for greater quality control and a quicker manufacturing process. In 2014, Wayne became the first (and proudly remains the only) PU gumboot manufacturer in Africa.

Over the years, we have worked on reducing our carbon footprint in line with our objective of sustainability, and today we produce 35% of all our gumboots from recycled materials. Our Duralight 1 is well-recognised in agricultural sectors and incorporates a mix of virgin and recycled PVC that results in a superior, yet cost-effective, recycled gumboot upon which our customers can trust and rely.

In 2015, we were the first to introduce a fully-integrated metatarsal PVC gumboot to market that was EN20345-accredited. Our gumboots are compliant with all safety standards and regulations, and are manufactured in an ISO 9001-accredited factory to ensure unrivalled quality. This has allowed us to compete with international brands and broaden our global footprint to over 40 countries worldwide.

After 80 years of specialised gumboot manufacturing, innovation and technical achievement, Wayne remains a proudly South African company that supports and services the local economy, establishing ourselves as part of the history of our great country and continent.

RANGE SUMMARY

2

MEDIUM/LIGHT DUTY

Offering safety features and protection in wet and muddy conditions, allowing workers to focus on the job at hand with minimal distractions.

Made with recycled PVC, boasting a greener footprint.

Recommended for agriculture, food processing, general purpose, and hygiene industries.

4

HEAVY DUTY

Tough, hardwearing boots for extreme conditions, providing comfortable protection for some of the harshest working environments.

The range is most suited for high risk environments.

Recommended for mining, agriculture and construction.

8

POLYURETHANE RANGE

Wayne brings you the latest technology in the world of gumboots – polyurethane (PU).

PU gumboots can last up to 3 times longer than PVC boots and are lighter in weight, thereby enhancing the comfort of the wearer.

PU gumboots provide greater resistance to the harsher acids, oils and chemicals that are present in some industrial environments.

10

ACCESSORIES

Enhance the comfort and safety features of your gumboots with high-quality accessories that have been specifically designed for Wayne gumboots.

Gumboot accessories include boot fur liners and insoles.

DURALIGHT 1 – MEN'S & LADIES'

NYLON LINER

Easy to clean and quick-drying for maximum hygiene

UPPER

Recycled PVC for optimum flexibility and abrasion resistance

MEN'S

LADIES'

LIGHTWEIGHT

For enhanced comfort and reduced fatigue

SOLE

Recycled PVC for maximum durability

SIZES

MEN'S: 5 - 12
LADIES': 3 - 9

chemicals

SIZES
RSA 3 - 14*

* Please note that size 14 is a different design to sizes 3 – 13, but carries the same accreditations

EGOLI 2

Tapered topline for added comfort and ease of entry

UPPER

Available in PVC for optimum flexibility and abrasion resistance

Broad calf area for enhanced comfort

Improved kick-off spur for ease of entry and exit

Smooth outer sole cleats for enhanced slip resistance and easy cleaning

CLEATED SOLE

SRA-level slip resistance and maximum soil release

NYLON LINER

Easy to clean and quick-drying for maximum hygiene

Lightweight for reduced fatigue

Steel mid sole inserted before injection moulding for perfect fit and dependable protection

TOE SPRING

Optimal for walking and kneeling

Side-fitting steel toecap

SOLE

Nitrile PVC for ultimate durability and protection against oils and chemicals

SIZES
RSA 5 - 14

EGOLI 2 - METAGUARD

The Metaguard is the first fully-integrated PVC gumboot with metatarsal protection in Africa that is EN20345-accredited

UPPER

Available in PVC for optimum flexibility and abrasion resistance

Easy to clean and quick-drying for maximum hygiene

METAGUARD INSERT

For maximum metatarsal protection

SOLE

Available in nitrile PVC for ultimate durability and protection against oils and chemicals

TOE SPRING

Optimal for walking and kneeling

CLEATED SOLE

SRA-level slip resistance and maximum soil release

SIZES
RSA 4 - 14

GRIPPER

DID YOU KNOW? The Gripper is made from recycled PVC for a superior, eco-friendly and reliable gumboot

UPPER
Available in recycled PVC for optimum flexibility and abrasion resistance

NYLON LINER
Easy to clean and quick-drying for maximum hygiene

TOE SPRING
Optimal for walking and kneeling

CLEATED SOLE
Designed to provide maximum slip resistance

SOLE
Recycled PVC sole for maximum durability

SIZES
RSA 3 - 13

ANKLE MINER

NYLON LINER
Easy to clean and quick-drying for maximum hygiene

WATERPROOF
PVC bellows tongue preventing water penetration

UPPER
Available in PVC for optimum flexibility and abrasion resistance

TOE SPRING
Optimal for walking and kneeling

CLEATED SOLE
Designed to provide maximum slip resistance

SOLE
Available in nitrile PVC for ultimate durability and protection against oils and chemicals

SIZES
RSA 5 - 12

WAYNE'S POLYURETHANE GUMBOOTS HAVE BEEN FLEX TESTED TO OVER 900 000 FLEXES* WITH NO SIGNIFICANT DETERIORATION

UPPER

Vertically-Injected Air Bubbles - Enhanced lightweight and thermal resistance for increased comfort and reduced fatigue with no compromise on strength or durability

Cross-Link Structure - The chemical composition of Pure Max polyurethane sees a cross-linked three-dimensional system enforcing a dynamic molecular structure

Multi-Stage Curation - Results in a protective 'outer skin' for resistance against chemicals, dirt, oil and water

LINING

Antimicrobial - A durable defence barrier which helps fight odour-causing bacteria, mould and mildew

Moisture Wicking - Added comfort and hygiene through protection against humidity and condensation

PU COMFORT FOOTBED

Superior Comfort - Anatomical arch support, cushioning and highly-effective thermal regulation for all-day comfort

Antimicrobial - A durable defence barrier which helps fight odour-causing bacteria, mould and mildew

Moisture Wicking - Absorbs moisture retained inside the gumboot and expels it away from the foot

SOLE

SRC-Rated Slip Resistance - Pure Max soles are enhanced with clean edges and flow lines, plus SRC-rated technology

Anti-Static - Regulates the build-up of electrical charge and protects against the dangers of static build-up

Unique Tread-Groove & Depth - Non-clogging soles paired with considered tread-groove depth afford torsion control ladder grips

*Equates to over 900 000 steps, over 450 miles or over 720km. Standard testing norm is 30 000 flexes.

PURE MAX

INSULATION

Directly enhanced thermal properties provide good insulation against heat and cold

MULTI-STAGE CURATION

Resulting in protective 'outer skin' for resistance to chemicals, dirt, oil and water

UPPER

Polyurethane for maximum chemical resistance and durability

ULTRA-SONIC WELDING

Seams in the linings are ultra-sonically welded for enhanced abrasion resistance

COMFORT

Boots are fitted with a polyurethane insole for enhanced comfort

UNIQUE TREAD-GROOVE AND DEPTH

Self-cleaning outsole with torsion control for uneven terrain

DURABILITY

2 to 3 times more durable than PVC due to excellent flex cut and abrasion resistant properties

LIGHTWEIGHT

For enhanced comfort and reduced fatigue

STRUCTURAL COMPOSITION

Delivering a lightweight finish without compromising on maximum protection and durability

MOISTURE WICKING

Ensuring ongoing hygiene by expelling moisture away from the foot

MAXIMUM HYGIENE

Treated with anti-microbial and anti-fungal protection

ANTI-STATIC FEATURES

Regulating the build-up of electrical charge

SOLE

Designed to ensure highest possible SRC slip resistance rating

ACC12914

ELASTOPAN CLIMATE CONTROL INSOLE

The Elastopan Climate Control Insole has been carefully designed to enhance comfort, while ensuring optimal hygiene and protection. Elastopan is highly durable and provides excellent absorption and desorption of humidity (up to 300% higher than standard PU) for thermal regulation and moisture wicking abilities, ensuring your feet stay cool and dry.

The Footology Elastopan Climate Control Insole further features antifungal and antibacterial treatment, anatomical arch support and cushioning for all-day comfort. Available in sizes 5 to 13.

ACC13331

FOOTOLOGY MEMORY FOAM INSOLE

The Memory Foam Insole is made from a durable memory foam for ultra-cushioning comfort and quick-drying properties. It is treated with an antibacterial and antifungal treatment and has excellent inherent moisture wicking properties. The insole is both breathable and washable and contains an anti-static stitch which conducts electricity away from the foot.

If you are exposed to any of the acids, oils or chemicals that rate 1, 2 or 3 on the table we recommend a PVC gumboot.

This table should be used as a general guide only. Performance in the actual working environment will depend upon the following: temperature of chemicals, concentrations of chemicals and duration of exposure.

- 1** Dissolves
- 2** Poor: more than 30% change
- 3** Fair: 16 - 30% change
- 4** Good: 4 - 15% change
- 5** Excellent: 0.3% change
